

WHITE PAPER
METASQUID GO
DESIGN-2021

The Gateway Into The Metaverse,
play to earn

ABOUT METASQUID GO

METASQUID GO is a web-based online multiplayer game that adopts PLAY TO EARN concept on \$MSQUID and \$MWON cryptocurrency. Inspired by the movie Squid Game on Netflix, we are presenting 2 games.

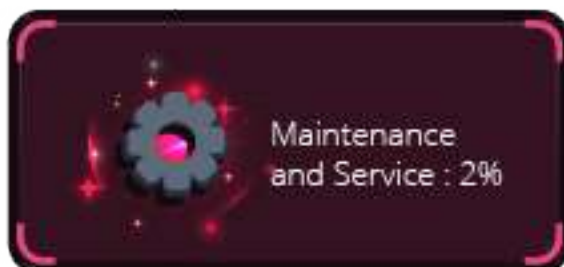

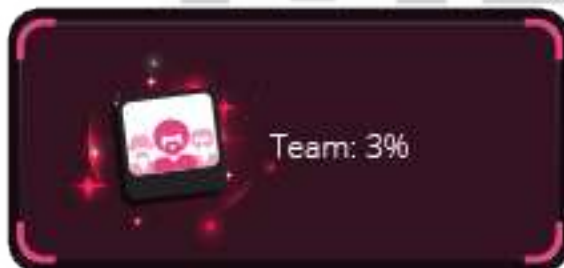

The first game is designed to get token through airdrop. Players only have the opportunity to play the game once a day to get \$MWON token if you win. You can keep playing but you will not get \$MWON even if you win the second time in that day. The game will reset in 24 hours to win another reward. This game is called "Red Light, Green Light" which is a very famous traditional child game in South Korea. The point of RED LIGHT, GREEN LIGHT is for players to move through finish line. The players can only move on GREEN LIGHT and must stop on RED LIGHT. This game will consist of a huge doll which will be the observer for the players to follow the rule. The players who move on RED LIGHT will be shot down by the guards.

The second game is a survival game where 4 players kill each other and only 1 survivor. The winner will get a huge reward. This game is called SQUID ARENA.

There will be 2 cryptocurrencies on METASQUID GO which are \$MSQUID and \$MWON. \$MSQUID is a cryptocurrency used to buy characters, weapons, skins and lots of things on SQUID ARENA. \$MWON is a cryptocurrency used as reward for airdrop event and being a winner in SQUID ARENA.

PLAY-TO-EARN!!

MSQUID TOKENOMIC
